The Wagner Union was completed in 1970 and designed in the modern style by Perkins & Will. The building is constructed on a hillside and 2 floors extend below the entrance level (which is the third floor). All offer sweeping views of the New York City skyline, New York harbor, the Verrazano-Narrows Bridge, and the Atlantic Ocean.

The building houses the college art gallery, bookstore, and the Hawk’s Nest. In addition, college administrative offices (President, Provost, Dean of Students), meeting rooms, student government offices, offices for the Wagnerian and Kallista, and the dining hall.
